

Layout

Header can be of a darker shade to enhance the brand logo.. Logo to the left

Navigation Bar may look better with some symbols to have less writting.

For **become a member** in Nav bar we can shift it to left side (to attract attention)

Career options and upcoming events take up a lot of space.

Navigation bar can be combined into one line

Change font size and make the contents more attractive to read

News Room may be re-created in a vertical timeline shape

hight-light sub-navigation bar in each page

The slide show images quality is low

slide show is nice but could be nicer with a full face pictuers rather than masked face

Functionality-IABC

Twitter can be just a card that can be flipped multiple times This will help save space.

keep all navigation bar in some format

get rid of /volunteer/sponsrship from url

search box accepts two character the thing can break down the server if a hacker used a robot search tool to ganerate multiple search requests

motivating prize can be add to those who deserve- Membership

Sharing with more social media sites can drive IABC web page to more users

creating a direct donation link

proper browser tag for the main page

Manual posting of job by companies

Payment security

Dare to lead should be included in events

Email Us button does not work

Job posting

Two way communication

Make subheadings like sponsorship, can be put into small boxes. Long texts= low interest

reduce the linkes redirecting to the same page

In contact us, the form is very old fashioned.

Nav bar- **Contact us and about us** can be combined

Re-arrange and high-light the main functionality for the visitors/clients

adjust contents in different window/broswer sizes Phone size

Keep sub-navigation bar in All pages

Signup/email can get into one. So less repetition.

Online payment

contact info also in the footer. for user's ease.

too much writing, pictures can make it easier to viualize things

Functionality- USERS
