Customer	Customer		Customer,IABC Offi...	Customer,IABC Offi...		
Easy navigation	Elegant (clutterless) Layout		Two way communication	Career/Event/Job Posting		
Navigation bar can be combined into one line	News room- Sections container	Attractive content	Email	Event posting proposal	Job posting proposal form	(Approval for job posting from back-end)

MVP

Nav bar- Contact us and about us can be combined	News Room may be re-created in a Horizontal Section	In contact us, the form is very old fashioned.	Re-direct to an email form	Fill up the template	Validate the inputs from the form	(Review and verify the job information)
Keep sub-navigation bar in All pages	get rid of /volunteer/ sponsrship from url	Change font size and make tiles display for users attention	fill up email	Check for all required rows to fill up	A proper form pattern to collect info for posting a job	(Post the jobs on foram if it is approved)
keep all navigation bar in same format	In contact us, the form is very old fashioned.		hit send button	Press submit/post button		(Notify the customer which part of info is invalid)
	Arrange career options and upcoming events					

## release (2)

Header can be of a darker shade to enhance the brand logo.. Logo

The slide show images quality is low

Developing new ways to communicate can deliver better

Story the input in DB and send all info to IABC department to
